Please Note: - It is your responsibility to ensure you have provided all relevant make and model details and that they are accurate. Dynobike will in no way be held responsible for any modifications made to your ECU whatsoever.

If used on public roads, your modified ECU could be considered tampering with emissions controls. Dynobike Pty Ltd is not responsible for any damages, problems, or fees associated with the tampering of emissions controls.

Dynobike Pty Ltd is not liable for any damages to the engine after the ECU is flashed and this service will void most warrantees.
